ATELIER

Atelier Lilu creates furniture for kids who want to be similar to their mom and dad! Including having an “adult” bed! This is the studio with European quality standards that creates hot couture kid beds with special soft sides for kids’ comfortable and safe sleeping.

Child's Dreams...

Brooklyn

Experienced masters of Atelier Lilu created cozy and safe furniture for your child two years and older – Brooklyn collection. Your child will be safe while playing, reading, sleeping on the bed or sofa – a soft headboard and soft sides decorated with a dot will take care of him.

Fouettè

Fouetté

The Fouetté collection is dedicated to sophistication, elegance and incredible lightness. To create such a collection, our designers were inspired by the art of ballet. That is why the bed from the Fouetté collection has a high headboard, which makes the bed more elongated and slender; smooth lines of protective sides; and thin strong legs. Finely, the bed also has its own ballet-tutu in the form of a decorative tulle bedcover-sachet.

Florence Slim

The Florence Slim collection looks like furniture for grown-ups in miniatures. Modest design with small edging along the perimeter, and slightly cambered silhouette of a sofa and an armchair to make a young gentleman feel himself like an adult. But he is still a restless child! So high silicone holders will take care of him.

Maximum comfort for child during rest and sleep is the most important for us. Therefore, we are happy to pick up furniture with which your child will always feel comfortable.

All our furniture is adapted for children from 3 years. The height of the beds with the mattress is optimally matched for children's growth. Soft bed sides guarantee maximum protection against the child falling during sleep.

Each product is unique in its own way, because absolutely all our beds and sofas are made by masters manually using classic furniture technologies. We follow all world trends in furniture art. We try to be first who order new fabric collections from the leading textile factories in Europe. Our products always look fashionable and modern.

All materials that we use in the production of our products comply with European quality standards. Frames for beds and sofas are made of wood.

ATELIER LILU makes the best furniture and decor with love and care, and also offers everything you need to equip a children's room in a classic style. Beds with soft bed sides, sofas with orthopedic mattresses, divans and dormuses for children's room, armchairs and cabinet furniture – all these you can order in our atelier. We are constantly evolving and try to surprise and delight our customers.

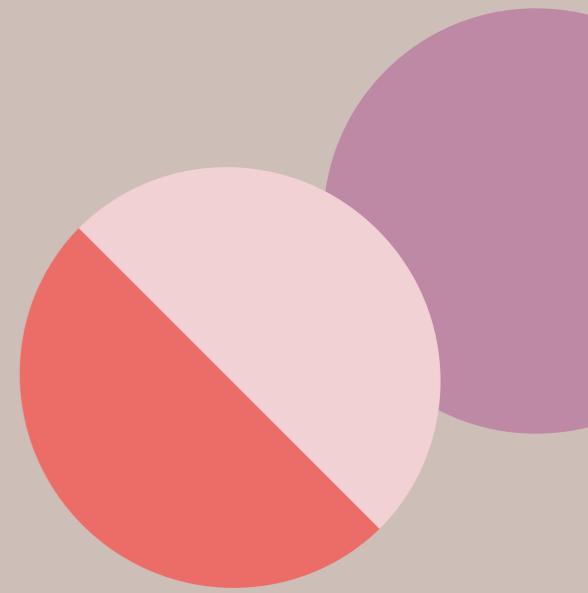

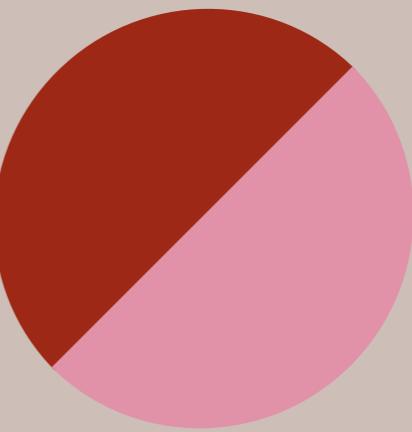

We specifically select the best materials for our furniture: natural wood, fabrics from Italian and French manufacturers (Dedar Milano and Maison TheVenon), and also high-quality Belgian furniture.

Our masters make all products manually, individually for each client, therefore we boldly assert that each of our products is unique.
